PROJECTS

BLOOD MANAGEMENT SYSTEM | JAVA SPRING BOOT
2022-2023

- It is a web-based project using spring boot and MySQL. Its main motive is to help a person by providing nearby blood donor information. The idea of this project is to find a blood donor quickly in a certain area.

CODELAND (A PROBLEM SOLVING SITE) | PHP, HTML & MySQL
2021

- It is also a web-based project using Html, Css and MySQL. This project is made from inspired by Codeforces, Lightoj and Vjudge. I made it while I was learning Web Designing in our university course. It combine problem from different problem solving site. Here user get different categories problem and submit it. Here is also an admin panel who will manually judge the solution by submitting it's original site.
